

### RENTAL SCALES

Shown below are the scales we have in stock for rental. If you need something that is not shown, let us know and we will do our best to accommodate you. Delivery, set-up, and instructions included in rental pricing.

#### TARE PLATFORM SCALE WITH INDICATOR

These TARE INC. ELECTRONIC PLATFORM Scales with TI-500E Digital indicator have been designed to provide the utmost product quality with scale accuracy. Power Requirements: 110 VAC. .

ORDER NO.	PLATFORM SIZE
L303-5K-M	48" x 48" x 3-1/2"-5000 lb or 10,000 lb, (Weight 260 lbs)
L306-5K-M	60" x 60" x 3-1/2"-5000 lb or 10,000 lb, (Weight 570 lbs)

TI-500E

#### LAUNDRY SCALE WITH RAMPS

The TARE Electronic Laundry Scale with built-in ramps at both ends of the scale eliminate the usual problems associated with floor space and portability of scale bases. The 10" ramps on each side make entry and exiting easy. The use of solid state technology assures accuracy. Four load cells mean no moving parts and low maintenance. Complete with TI-500E Digital Indicator. RS232 Standard. Diamond-plate top deck for easy pushing of carts. Weight: 400 lbs

ORDER NO.	PLATFORM SIZE
L302-1K-RR	1000 lbs x 0.5 lbs, 48" x 60", with 10" built-in ramps

TI-500E

#### TARE "AL-Light" ALUMINUM PLATFORM SCALE

The TARE all aluminum "Floorweigher" is a highly portable, low-profile floor scale constructed with aluminum diamond-tread plate and aluminum channel underneath. It is pre-calibrated at the factory. It is heavy in performance but light enough to make it easily moved from one location to the next. The aluminum construction makes it suitable for wet, washdown environments. Power Requirements: 110 VAC. Weight: 200 lbs

ORDER NO.	PLATFORM SIZE
L307WI-5K	5K capacity, 34" x 34" x 3 1/2" high

## PORTABLE PLATFORM SCALE WITH INDICATOR

The TARE T-334 Portable Industrial Electronic platform scale with the TA-500 digital indicator has been designed to provide the utmost product quality with scale accuracy. A complete weighing package *pre-calibrated* for ease of installation. Accuracy meets or exceeds National Bureau of Standards, NIST Handbook #44 conformance when used with the TI-500E instrument. Displayed Weights: lb, kg, grams. Power Requirements: 100 VAC 60 Hz, or battery power. Weight 150 lbs.

ORDER NO.	PLATFORM SIZE
T334-1-M	24" x 24" x 4-1/2" H, 1000 lb x 0.2 lb Base and TI500E Indicator

## WAY BARS

These Portable Way Bars are built to withstand even the harshest environments. Built of thickwall tube steel, they will give you 150% performance when weighing. Two bars per set, with standard shear beam load cells. They have built-in horizontal checking to assure accurate weightments. The bars are equipped with 8' of cable. These way bars convert existing systems such as tanks, hoppers, or conveyors into accurate scales. Can also be converted to a floor scale by placing 3 or 4 tubes between them to weigh skids or drums. Complete with TI-500E Digital Indicator and *pre-calibrated* for easy set up. Power Requirements: 110 VAC.

ORDER NO.	PLATFORM SIZE
L433-2K-5K	48" Long, 5,000 lbs (set of 2) Ship Weight 95 lbs

Way Bars with Connectors

TI-500E

## COUNTING SCALE

The A&D HC series counting scales incorporate the latest advances in electronics and mechanical engineering. This scale is compact, convenient, and simple to operate. It has a single LCD display. Platter size: 8.5"W x 11.5"D. Power: 115 VAC 50/60 Hz with AC adapter or six type "C" batteries (approximate operating time 200 hrs). Weight: 10 lbs

ORDER NO.	CAPACITY
J274	HC-6KA 12 lb x 0.002 lb

**COUNTING SCALE**

The A&D FC-2000i series counting scales features include RS-232 interface for printers and computers, aluminum die-cast frame housing with splash proof display and keyboard, remote scale option, and a large VFD display the displays count, weight, comparator result, unit weight, ID#, and item code. Weight: 14 lbs.

ORDER NO.	CAPACITY	
J275	FC-2000i	5 lb x 0.0005 lb (2000 g x 0.2 g)

**INDUSTRIAL COUNTING SCALE**

This counting scale is portable and built to withstand industrial environments. Weighing units: lbs, counting. Power source: Built-in rechargeable battery or external power adapter (included). Stainless steel pan and ABS housing. 200,000 count internal resolution. Weight: 10 lbs

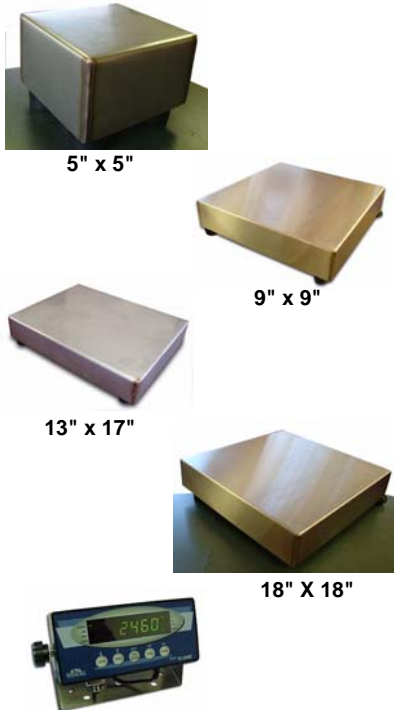

ORDER NO.	CAPACITY	
J204	OAC-6	12 lbs x 0.002 lbs
J206	OAC-25	60 lbs x 0.005

**BENCH SCALES STAINLESS STEEL**

These stainless steel bench scales are ideal for areas where water is a factor. The platters are removable for cleaning. Precalibrated prior to delivery to your location. Complete with TI-300E Digital Indicator..

ORDER NO.	CAPACITY
H311	5" x 5", 1 kg x 0.001 kg (1 lbs x 0.001 lb)
H403	9" x 9", 20 lbs to 100 lbs x 0.1 lb
H412	13" W x 17" L, 100 lbs to 200 lbs x 0.1 lb
H413	18" x 18", 50 lb/100 lb/200 lb/400 lb

**BENCH SCALE - SHIPPING**

This scale is a rugged, portable, and high quality/low cost shipping scale with a 4 digit, 7-segment LCD display. Ideal for shipping, receiving, mailroom, manifest, or general purpose weighing applications. Features a full-duplex RS-232 interface that can transmit and receive data. Compatible with UPS Online System. Select lb or kg. It has a 12" x 12" platter. Power supply: AC Adapter (included) or a 9V Alkaline Battery (not included). Shipping weight 10 lbs. .

ORDER NO.	PART NO.	DESCRIPTION
H014	SPC-150	150 lb x 0.2 lb (65 kg x 0.1 kg)

**BENCH SCALE**

The SK Bench Scale has a 0.96" large backlit LCD display, stainless steel platter, and a toggle switch between kg and lb. Power: 6 DC batteries, 120 VAC 50-60 Hz AC adapter. Platform size: 9.05" W x 7.5" D. Weight: 7 lbs.

ORDER NO.	CAPACITY
H456	22 lbs x 0.01 lb (10 kg x 0.005 kg)

**COIN & TOKEN COUNTING SCALE**

The TARE J-100 series Coin Counting Scales are easy to use, highly accurate scales which feature programmable unit weights and denominations. Keyboard unit weight calculations and calibration of all functions are fast and easy. Three large LED displays (Back lit) show Denomination, Quantity, and Total Dollar Amount. Up to 25 multiple weighments can be accumulated for batch counting. This scale is battery operated (125 hrs), can go anywhere, and will count coins, tokens, currency, and chips at the touch of a button. Power source is a chargeable battery, 6V DC with AC adapter. RS-232C serial port standard. Overall dimensions are 11.0" W x 11.2" D x 4.7" H. Platform size is 11.0" W x 11.2" D. Weight: 11 lbs.
